

# What is ThermaSkirt?

- ThermaSkirt replaces the skirting boards and radiators in one
- True radiant heating solution like under floor heating, without the hassle
- Energy Efficient - typically 13% better than conventional systems
- Rapid, controllable response times and works with any floor covering
- Available in a range of profiles, finishes and colours to suit any home
- Easy to install - renovation or new-build, extension or conversion
- Works with conventional boilers and renewables such as Heat Pumps
- Suitable for RHI & Green Deal Government Initiatives
- Over 10,000 systems already installed
- Manufactured in the UK - as seen on Dragons Den

ThermaSkirt<sup>®</sup> fully complies with BS-EN 442, 89/106 and carries the CE mark.

## What is ThermaTwin?

- ThermaTwin is a solar thermal panel that provides up to 70% of your annual domestic hot water for 'free', courtesy of the sun
- Solar PV powered pumps and controls means its completely 'off grid', and therefore zero running costs
- Freeze tolerant - no glycol or anti-freeze means zero maintenance
- Robust and reliable - hail, football and vandal proof
- Manufactured in the UK to EN 12975 & ISO 9001
- Direct System - Uses existing water cylinder to minimise installed cost
- Solar Key marked: Eligible for Green Deal & RHI Government Initiatives

*"ThermaTwin solar panels were fitted in December 2009 and have worked as efficiently and without incident as the day they were first fitted. These are beyond a doubt the best investment we have made.. I would not hesitate to recommend ThermaTwin Solar panels to anyone and in fact have done so time and time again"*

*Samantha Southam, Chief Executive, Falcon Housing*
