Supplier summary	Lloyd Worrall Group sits within Grafton plc, a major merchant business of sound nancial structure operating at over £2bn turnover. LWG can demonstrate an ability in project involvement from design stage to beyond handover. Through a dedicated performance doorset team the company has over 130 years' experience in speci cation, scheduling and contract management of complete doorset solutions within the health sector. The company has a manufacturing capacity of approximately 2,000 doorsets per week, with a world-class production environment producing doorsets to the highest standards, all with a minimum guarantee of 10 years. LWG is sensitive and exible to speci c client requirements, and works closely with them. The company has recently obtained speci c re certi cation testing to deliver a doorset to Hallamshire Hospital that replaces the Trust's long-standing uncerti ed hardware speci cation Through the company's UK-wide branch network, it is involved in the whole life of a building long after supply, providing a local service with repair and maintenance contractors or NHS in-house facilities management. The company's stand-alone distribution company provides all the master keying in a specialist lock assembly workshop, and the company services its own master-keyed systems, some of which are decades old. As a solutions company, Lloyd Worrall is involved in doorsets, access controlts,engmatics, architectural hardware, handrail and balustrade, sanitary, washroom and signage. The company has a co-ordinated communication
